

รายชื่อผู้นำเสนอผลงาน Fellow Paper (English Version)

Room 2 (Date 23 Jan 2025)		
10.30 - 12.00	Fellow Paper (Rapid fire)	Title
10.30 - 10.34	Satawat Jirapan	Prognostic factor and patient-specific factors affected to post operative pain and post operative clinical outcome in biportal endoscopic spine surgery in lumbar degenerative spine disease 2 years follow up
10.34 - 10.38	Korapuk Lerswanichwattana	Clinical Predictor of S1 Screw Failure in Long Spinal Fusion Surgery
10.38 - 10.42	Chayanon Kessaraphong	Analysis of factors predicting improving back pain in Lumbar spinal stenosis patients receiving caudal epidural steroid injection – a retrospective study
10.42 - 10.46	Charnchai Jongtaweessathapon	The comparison of cervical sagittal parameters between neck pain patients with cervical spondylotic radiculopathy (CSR) and those without CSR
10.46 - 10.48	Nuttapol Rujurachotiwat	Efficacy of epidural gelatin sponge with dexamethasone and fentanyl after posterior laminectomy and instrument fusion in lumbar degenerative disease
10.48 - 10.53	Q&A	
10.53 - 10.57	Nattapat Tangchitcharoen	The effect of Mediclore as an anti-adhesion agent and safety in full-endoscopic spine surgery: a preliminary study
10.57 - 11.01	Danaya Yodsuan	Can lower lumbar neural foramen to the ipsilateral center of the femoral head distance predict the incidence of neuropaxia in post-operative adult spinal deformity?
11.01 - 11.05	Tinh Laoharajanaphand	Comparison of clinical outcomes in frail patient following 1-2 level lumbar fusion surgery with and without the implementation of the enhanced recovery after surgery (ERAS) protocol
11.05 - 11.09	Borriwat Santipas	Clinical outcome of vertebroplasty alone versus short-segment posterior instrumentation with vertebroplasty in osteoporotic vertebral fracture: A Propensity Score-Matched Analysis
11.09 - 11.13	Sitthikorn Kaensuk	The efficacy and safety of diacerein versus placebo in the treatment of chronic low back pain. Double-blind, randomized, placebo controlled trial
11.13 - 11.18	Q&A	
11.18 - 11.22	Suthavee Pangkanon	Full endoscopic interlaminar resection of lumbar facet cyst with neurologic complication in a cohort of 52 cases: 15 years follow up.
11.22 - 11.26	Ponlawut Wongrawung	Comparison between outcomes of enhanced recovery after surgery program and non-enhanced recovery after surgery traditional care in patients undergoing endoscopic spine surgery
11.26 - 11.30	Bandid Chaiwongvattana	Risk factor of unsatisfactory outcome requiring additional intervention after oblique lumbar interbody fusion
11.30 - 11.34	Panyajarn Laohapornsvan	Efficacy of intraoperative taping technique in the reduction of deformity in adolescent idiopathic scoliosis surgery and its impact of surgical outcomes
11.34 - 11.39	Q&A	
11.39 - 11.43	Panapol Varakornpipat, MD	A Comparative Analysis study of cost-effectiveness among open transforaminal lumbar interbody fusion, minimally invasive transforaminal lumbar interbody fusion (MIS TLIF) and oblique lateral lumbar interbody fusion (OLIF)
11.43 - 11.47	Thanadol Tangdamrongtham, MD	Incidence and Risk Factors for Lumbar Sympathetic Chain Injury after Oblique Lumbar Interbody Fusion
11.47 - 11.51	Sansern Satthanan	Effect of High Pelvic Incidence on Fixation Failure in Single-Level Transforaminal Lumbar Interbody Fusion for Low-grade Spondylolisthesis
11.51 - 11.55	Patchara Pomsopanakorn	Cement leakage in Minimally Invasive Screw Cement Augmentation in Pedicle Techniques (MIS CAPT)
11.55 - 12.00	Q&A	

rapid fire session (Date 23 Jan 2025)		
10.30 - 11.15	Fellow Paper (Rapid fire)	Title
10.30 - 10.34	Patchara Pomsopanakorn	Cement leakage in Minimally Invasive Screw Cement Augmentation in Pedicle Techniques (MIS CAPT)
10.34 - 10.38	Wattanaï Mungklarat	Effect of additional ceiling halo gravity traction combine with overnight Halo Gravity Traction Rigid and Severe spinal scoliosis
10.38 - 10.42	Warunyu Limmaneevichitr	Predicting in hospital mortality risk for spinal metastasis surgery : the PPMSs scoring system
10.42 - 10.46	Wasayot Gruirungrot	The correlation between the adequacy of decompression and clinical outcomes by unilateral biportal endoscopic technique in patients with lumbar herniated disc
10.46 - 11.00	Q&A	
11.00 - 11.04	Wissarut Soontornweera	Efficacy of selective nerve root block, using Kambin's Triangle approach versus Traditional Safe Triangle approach for treatment in patients with sciatica pain Retrospective cohort study
11.04 - 11.08	Sorasek asawathavornvanich	Long-term outcome after shortening spinal osteotomy in acute tuberculous spondylitis: A retrospective descriptive study
11.08 - 11.12	Q&A
